in <http://uk.linkedin.com/in/massimofranciosa/en> 🐙 <https://github.com/mazzimo>

A versatile software developer with great passion for technology, great ability to problem-solving and great attitude to learn quickly. I'm a passionate programmer that likes to put hands on code in my spare time; I like to work with cutting-edge technologies and methodologies. Experienced in working in Agile teams (Scrum). Currently strongly interested on expanding my experience on Javascript frameworks.

Skills

Object Oriented Programming Design Patterns c# JavaScript jQuery CSS Bootstrap
.Net Sitecore Umbraco ASP.NET MVC ASP.NET WebForms SQL Server Git
Continuos Integration Jenkins SVN Mongo DB REST HATEOS TDD Unit Testing
RabbitMQ IoC VB.NET Windows Forms Angular JS Azure Windows Phone Development
XAML SOAP Jasmine

Working Experience

Reading Room - Web Developer/Software Engineer

[\(http://www.readingroom.com/\)](http://www.readingroom.com/) Sep 2014

Reading Room is a digital agency based in UK recently acquired by Idox Group. My main task consist in following the development lifecycle of some of the .Net projects (mainly Sitecore and Umbraco), from analysis to maintenance.

c# JavaScript CSS .Net Sitecore Umbraco ASP.NET MVC ASP.NET WebForms
SQL Server Git Continuos Integration Jenkins SVN

Sporting Index - Integration Software Engineer

[\(http://www.sportingindex.com/\)](http://www.sportingindex.com/) Jun 2013 - Jul 2014

Sporting Index is award winning company specialized in spread betting. I was part of the integration team. Main responsibilities include: Design and build new API's and working with customers helping them integrate the platform into their systems.

c# .Net Mongo DB REST HATEOS TDD Unit Testing RabbitMQ Git
Continuos Integration IoC

Prama - Software Engineer

(<http://www.prama.co.uk/>) Aug 2012 - May 2013

Prama is a brand that includes products such as www.asiand8.com, www.chillitickets.com, the AsianWoman and AsianBride magazines. As part of the IT crew I took care of maintenance and improvement of the current applications as well as building new products for the company.

c# VB.NET .Net ASP.NET WebForms ASP.NET MVC JavaScript jQuery CSS Bootstrap
REST Unit Testing SQLServer SVN IoC

WeBuild - Web Developer/Software Engineer

(<http://www.webuild.co.uk/>) Jun 2011 - Aug 2012

In WeBuild I took care of all the new projects which the company is involved, in all the software development life-cycle, from analysis to delivery.
